PROFESSOR ALEX C. HARRY'S
TRICOPHERON,
or Medicated Compound,
FOR beautifying, improving and preserving the Hair; carries out the curls; burns, stimulates and all irritations of the skin. A preparation the sale of which amounts to one million of bottles annually, which seems to need no advertisement, but as the thousands who purchase, use and approve of it have probably no idea of the enormous extent of the business done by Professor Harry, he gives herewith a plain statement of facts derived from his books, and with them renews his earnest and hearty thanks to his innumerable patrons.
Professor Harry's account of sales for the year 1852 show that during the year there 910 000 bottles of his Tricopheronus were dispersed and that the cash product of this immense sale was nearly $100 000
This plain unvarnished tale is a better commentary on the value of the article than any thing its inventor could say. If it were not peerless in its effect upon the hair—if it were not invaluable as a household remedy for cuts, bruises, burns, skin diseases, &c—it would not, of course be so universally in demand. The wealthy portion of the public would buy at any price but Professor Harry has reduced it to a figure so low that the poorest can avail themselves of its benefits
Sold in large bottles (price 25 cents) at wholesale and retail, at the manufactory and depot 137 Broadway, New York and by the principal merchants and druggists throughout the United States and Canada, Mexico, West Indies, Great Britain, France, &c

John Bunyan's Immortal Allegory
PROBABLY no book save the Bible has been so extensively read as Bunyan's immortal allegory
The Pilgrim's Progress.
It has been translated into nearly all the different languages of Christendom, and been perused with delight and holy fervor by all nations. Art has lent her attractions in nearly all the forms of illustration from the rough Wood Cut to the exquisite Steel Engraving. Ent to the middle of the nineteenth century, and to an American clergyman, are we indebted for the only pictorial conception of this immortal work.
The novel and sublime idea of embodying the entire story, and transferring the same to a single picture, showing the wanderings of Christian from the "City of Destruction" to the Celestial City, presenting at one view to the eye the various scenes through which he passed, originated with Rev Daniel Wright of Massachusetts. His truly original and beautiful conception was received in most elegant design by Hammatt Billings, and from this design Joseph Andrews the distinguished historical engraver, has produced, after four years of labor, a picture which will take rank among the most superb and elaborate productions of human genius taste and skill
The picture is now ready and will be offered at the Bookstore of the Publishers, and by Agents duly appointed by the Publishers

NOW READY:
The New Methodist Singing Book!
LUTE OF ZION.
By I B. Woodbury assisted by Rev M. Mattison, Pastor of the John Street Methodist Church
T comprises nearly one Thousand pieces of the choicest Music including almost every old tune of any merit ever published; it represents some two hundred of the finest composers the world ever saw, and contains every variety of meter now in use, with copious indexes to every part. The LUTE is therefore held with truth to be an almost exhaustless mine of the richest Sacred Musical Treasures ever presented to the public. Glowing with the animation and burning zeal of the community for which it is designed, the tunes are nevertheless equally adapted to the Hymn Books of all denominations of Christians. Of Mr Woodbury's last Book, the Dulcimer,
OVER 150,000 COPIES
have been sold since its appearance three years ago, and still the demand is on the increase. Is any further evidence of the admiration in which he is held as a Composer to be desired?
From the enthusiasm with which he LUTE has already been greeted, a reception similar to that visited to the Dulcimer, is confidently expected
Any professional musician desiring a copy of either the Lute or Dulcimer for examination can have it sent to him, free of postage by remitting 50 cents to the Publisher

McFarland's
BURGLAR and FIRE PROOF
SAFES!
A FEW of the celebrated Safes have arrived from New York and those who are in want of a superior article which has been severely tested for the last ten years in every country are invited to call and examine them. Read what the New York Press say of them in regard to the late great fire in New York. Further comment is unnecessary

[From the Journal of Commerce of August 27th]
Messrs B F Reed & Hitchcock of 56 Water street, informs us that their Safe (one of McFarland's Fire Proof) at the great fire of the Pearl-st House although exposed for thirteen hours to the combined effects of burning Rosin and other Oils and a broken Gas Pipe directly underneath it preserved their books and papers in the most perfect order. They were not injured in the least manner

[From the New York Evening Mirror, of Aug 27th]
McFARLAND'S SAFES AT THE GREAT FIRE OF THE PEARL STREET HOUSE.—Looking at the ruins of this great fire yesterday we noticed in Water street several of McFarland's Safes which were being taken out of the ruins, the insides of which were all in good order. One of them in particular deserves special notice. It belonged to Messrs Pond and Hitchcock, oil merchants, No 56 Water street, and was exposed to the very hottest part of the fire being covered with burning oil and spirits and directly under a broken gas pipe from which the gas was escaping in large quantities, producing an intense heat. It remained in the fiery furnace for thirteen hours and we are informed by Mr Pond the owner that when opened his books and papers were found to be in a perfect state of preservation not even being scorched and hardly bearing the smell of fire, thus proving itself a perfect salamander. Every merchant should examine them and convince himself of their fire-proof qualities as some half dozen others of the same make were in the fire and every one preserved its contents from the least damage

[From the New York Tribune of August 30th]
The reputation of McFarland's celebrated Fire Proof Safes have lost nothing at the last great fires as usual preserving their contents uninjured and saving many thousands of dollars for their owners. These safes have built for themselves a world wide reputation and are adding to it at every fire. McFarland's motto is "Excelsior"

[From the New York Herald of Aug 25th]
Another convincing proof of the superiority of McFarland's Fire Proof Safes over all others as a protection against fire in the Safe which can now be seen at the ruins of the great fire on Tuesday night at the Pearl st House, where it was exposed in the old store of Messrs Pond & Hitchcock No 56 Water st for thirteen hours to the combined effects of burning oil and spirits. Books and papers inside were not even scorched

AYER'S
CHERRY PECTORAL,
For the rapid Cure of
COUGHS, COLDS, HOARSENESS,
BRONCHITIS, WHOOPING COUGH,
CROUP, ASTHMA, AND
CONSUMPTION.
THIS remedy has now a large and increasing fame for its cures of every variety of pulmonary disease that is entirely unknown in most of the localities of this country where it has been employed. As it has long become a staple article throughout this section we need not dwell more than assure the people its quality is kept up to the best it ever has been, and that the genuine article is sold in Bangor by O W Lincoln, C F Sargent, Guild & Harlow, S E Perkins, W L Alden and by all other druggists.

AYER'S PILLS,
A NEW and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female complaints &c, &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails, besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the churchyards all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.
Among the eminent gentlemen to whom we are allowed to refer for these facts, are
PROF. VALENTINE MOTT, the distinguished Surgeon of New York City
DOCT A A HAYES Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts
IRA L MOORE, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice
H C SOUTHWICK, Esq, one of the first merchants in New York City
C A DAVIS, M D, Sup't and Surgeon of the United States Marine Hospital, at Chelsea Mass
Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial
These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient result than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of inert mucous and injurious qualities by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self evident the effect should prove as they have proved more purely remedial and the Pills a surer, more powerful antidote to disease than any other medicine known to the world
As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address
Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries
The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial
They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting wherever they exist such derangements as are the first origin of disease.
Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity
For minute directions, see the wrapper on the Box.

Whig and Courier.

John S. Sayward Editor.

WEDNESDAY, NOV. 9, 1853.

☞ The Jeffersonian calls the statement we copied from a European Journal, and which first appeared across the water, concerning the manufacture of carpets for the Presidential mansion, "The Whig's Hopback." We gave the article and the authority from whence it was derived. We believed the statement to be substantially correct, and we will now say that we have as yet seen nothing to cause us to change our opinion on this point. Our comments were based upon the correctness of the statement in the British Newspaper, that some of its neighbors, whose names we e mentioned, had manufactured carpets for the White House at Washington, on the order of Messrs Stewart of New York. The charge then, of the Jeffersonian partakes of its own peculiarness, even if the British editor had been in error. No sensible and honest, or decent editor would have made such a charge under such circumstances. The Jeffersonian could do it and not depart from its usual track.

The Boston Post, on which the Jeffersonian relies for a contradiction of the British Editor, simply, though artfully, says:

"An order for all the carpeting required in re-furnishing the White House, was given to A. T. Stewart & Co., of New York city, and supplied by their capital and enterprise and machinery alone."

This we do not deem a full and fair contradiction. In one sense this may be true and still the carpets be of foreign manufacture.—That is the point we wish to determine, and we have not the remotest doubt that when the facts are all made out, the truth of the matter is that the carpets were manufactured in British soil, and by foreign machinery, from foreign wool, and by foreign workmen. The whole statement of the British editor bears upon its face the impress of truth, and he could have had no motive to misrepresent the facts, while the Boston Post had a strong motive to get up a dodge. Will the Post please to tell us about the "*machinery*," of what kind it is, whether it is pen ink and paper, or whether iron and steel and wood, &c., and whether it is located in a New York store or counting room or in a foreign land?

☞ The sudden appearance of cold weather and the Governor's Proclamation for Thanksgiving, serve to remind us of the claims of the poor. Since the labors of the City Missionary the charities of our citizens have been better organized than formerly, and the deserving poor have been better provided for, and impostors have fared worse. Few of our citizens who are able are unwilling to give of their substance for the relief of the needy, and but few of them have the time or opportunity to investigate the facts in cases when application is made. This important work the City Missionary has undertaken, and to him an appeal may at once be made, and whatever is placed at his disposal, is sure to reach worthy objects.

There are cases where the parties are well known to each other in which private charities may be and are dispensed, but for all common calls—for all new cases the safest and best rule is to refer them to the City Missionary.

It has been the practice for the City Missionary to provide for the poor a Thanksgiving treat in the way of giving them the means for a good dinner. It will facilitate his labors by our citizens handing him the names of such families as may be in need of this bounty, and this should be done as early a day as is practicable, so that he may make suitable provision for such cases. It is about time, too, for taking up the annual contribution to assist the needy, the sick, and the disabled for the winter. To this end cast off and partially worn clothing, bedding of every description, if deposited with the City Missionary, will be acceptable, and often afford greater comfort than can be expressed in words.

On the next Sunday, it being the Sunday previous to Thanksgiving, a collection will be taken up in all the churches in aid of the fund for the needy poor, to be dispensed by the City Missionary. We trust that the collection will be a liberal one, and afford the means for providing for the necessities of the distressed, the sick and the sorrowful in our city, in order that they may pass comfortably through the rigors of the approaching winter.

☞ The Boston money market for the week past, according to the Boston Journal, has been quite blue, with money rates up to a pinching point, and stock quotations down to small figure. Distrust and uneasiness are manifest everywhere, and it is seldom that the wants of borrowers are pressed so urgently. This kind of trouble always cures itself, and the more intense the pressure the quicker the remedy is applied. By contraction the banks, as well as individuals, soon place their affairs in a more comfortable condition, and in this way relief comes; the evil is it is, however, that sometimes in the contracting process, many are obliged to bend to the force of the storm. Fortunately trade has been healthy and, legitimate in this part of the country, and although the community has been highly prosperous for two years past, this prosperity has not been accompanied by any undue expansion. We are consequently enabled to endure this hard pinch with less suffering than is commonly experienced from money contractions extending over periods of equal length.

☞ The "Timber King," our old friend, N. G. Norcross, of whose timber purchases in Canada we made mention a while since, has already, through his agent, Mr. W. H. Lodgee, sent two hundred Maine lumbermen into the woods in Canada, and now advertises for more, some of the genuine double and twisted Penobscot boys, to cut timber in New Hampshire. Messrs. Fike & Norcross, the business firm, in which the Timber King is a partner, will employ, this winter in their operations at least five hundred men.

☞ There have been sold at the Danville, Illinois, land office from the 1st to the 30th day of September, half a million of acres of land. A great portion of it sold at $1.25

☞ The present high price of breadstuffs and provisions generally imp. pretty closely, the poor, and will cause some distress among them, and will lessen the amount saved by those who have large families, but at the same time it will serve to make people more economical and will encourage farmers to task their energies anew not only to raise their own bread, but also a surplus for sale. The encouragement held out to farmers for several years past by increasing high prices has already given new life to that department of labor, and made not a few enterprizing farmers quite independent.

The present year the apple crop in New England generally is very light. The crop in this State, however, is greatly over an average of that in the New England States, and in this thing the farmers in Maine are reaping a good reward.

It is very clear however, that in several particulars there is a great deficiency in fruit raising in Maine, and in the harvesting and getting fruit to market. There has not been, and there is not now sufficient attention paid to the selection of fruit for grafting. No farmer, if he understands his interests would raise native apples or those of an inferior quality at fifty cents a bushel, when the Ribstone Pippin, or Blue Pearmaine, and many other choice varieties would bring him a dollar a bushel. Handsome Gravenstein apples would now bring in this market between three and four dollars a barrel, and so of the Ribstone Pippin, if in good order. Now we know of nothing in which even those farmers in Maine who have good fruit are so lamentably, and we say disgracefully deficient, as in the harvesting, packing and care of their fruit. It comes to market, for the most part, bruised, broken, mangled. Apples come here from Western New York without a bruise,—One man in Massachusetts keeps his apples fair and sound until April and then ships them abroad, but here apples that come only a few miles are bruised and scarred, and their value greatly lessened, and their keeping qualities ruined. There ough to be a change in the selection of fruit and in the manner of harvesting and packing, for we are certain that by due attention to this matter Maine cannot fail to be a great and successful fruit growing State.

☞ On Sunday night last, fire broke out at Camden, in a shop, near the bridge, occupied by Widow Rawson and occupied as a shoe shop by Mr Coombs, and as a tailor's shop by A. C. Daniels. The building was destroyed but was insured. Mr Coombs stock was insured, while Mr Daniels had no insurance.

The fire thus communicated to a large wooden store owned by George Pendleton, Esq., which was destroyed. Insured. This building was occupied by Mr. Fogg as a furniture and dry goods store. He had a stock of $7000. Insured for three thousand dollars and a part of the stock saved. The chambers of this building were occupied as millinery rooms, Daguerreotype, &c. No insurance.

The weather was very calm, and the exertions of the citizens stopped the fire at this point, and thus saved the town from great destruction.

☞ MARYLAND.—The Baltimore Patriot says the election of a majority of Whigs to the Legislature, secures the re election of Hon. James A. Pearce, Whig, to the United States Senate.

The telegraph reports that in consequence of the election of the Maine Law Ticket for Representatives, nearly all the taverns in Baltimore were closed on Sunday, the proprietors anticipating a rigid enforcement of the Sunday Law.

JUSTICE.—It always gives us pleasure to commend whatever is commendable, and particularly to pen a paragraph laudatory of the popular Dry Goods Store of F. A. Jones & Co, Nos. 1 2 and 3 Tremont Row, Boston. Ladies wishing to combine utility with economy, will find a privilege to make their selections at this extensive and well known establishment.

☞ The entire receipts from California for 1853 will not probably equal the excess of our foreign importations over our actual exports of domestic produce and merchandise. Another California with its gold will be needed to keep up with our foreign importations.

☞ The owners and underwriters of the ship Flying Arrow, which was dismasted on her voyage to California, and put into St Thomas, and subsequently returned to New York, have presented to the Captain one hundred dollars as a token of their approbation of his conduct.

☞ The Trieste Zeitung, an Austrian paper, states that American cotton goods have beaten British manufactures completely out of the field, on the shores of the Black Sea.

☞ The number of 22,209 foreign emigrants arrived at New York during the month of October.

☞ The Portland merchants are making preparations for celebrating the arrival in that city of the first steamer from Europe.

☞ The weather yesterday was as blue as November—a regular storm brewer, and strongly threatening snow.

Vessel Building at Frankfort.

Launched, from the yard of Daniel Williams a first rate brig of 240 tons called the John Hathaway, this being the second vessel built on the same stocks this season. She was launched the first instant.

Also, launched the third instant, from the yard of Dunham Cutler & Co., a superior clipper ship of 1400 tons, said to be called the Flying Dragon. Very much has been said heretofore about the model, dimensions, materials and workmanship of ships built of late years, many of them occupying two columns of a newspaper, but it is enough to say of this ship that she is not second to any ship ever built in the United States.

From the Sandwhich Islands.

The news is highly interesting and important. Dr. Judd had been removed from the office of Minister of Finance, and Lisha E. Allen appointed in his place. A decided step had been taken towards annexation to the United States. The French and British consuls had protested to the King against such an act, and the American commissioners had replied in a firm but dignified manner.

This movement had caused the greatest excitement in the island.

CITY AFFAIRS.

Declination of P. B. Mills of the office of Chief Engineer of the Fire Department, read and sent down.

☞ RECEPTION OF THE AMERICAN MINISTER TO CHINA.—The New York Express has Shanghai letters of August 2d, which state that Hon Humphrey Marshall has succeeded in presenting his credentials to Hiang, the chief of the Board of Censors and President of the Board of War, who at the time was Governor General of the Hiang Kiang. The interview was held on the 4th of July, at Kaenshan, a walled city of about 300 000 inhabitants, twenty miles from Suchow, and 70 miles inland from Shanghai. Mr Marshall mounted the flag of the United States on a canal boat—the only craft which could navigate the inland canals—and with the suite, consisting of three Americans and three Chinese, he went to Kaenshan at the time appointed and had the interview—delivered his credentials in due form and they were despatched by a messenger in twenty four hours to Pekin. An answer acknowledging them was guaranteed by the Viceroy. The correspondent of the Express adds:

"So, after all, and notwithstanding the neglect of him by the United States naval officers, he was lucky enough to carry the point which originally brought him to the North, to wit, to give that practical construction to our treaty which concedes the right of an American Minister to deliver communications for the Emperor at any of the viceroyalties of the many provinces—and Mr Marshall is the first white man who has ever carried a Western Christian flag into the interior of China, with the consent of this government—independently, dressed in his own national costume, not pretending to bring presents, and not bearing tributes, as did Earl Macartney in 1798. He floated the stars and stripes to the breeze during the whole voyage, which occupied two days and nights going, and one and a half returning. There except on was a very grand affair. An entertainment was prepared in a great temple, at which he partook with the Viceroy and a large company. In fine he succeeded in getting a handsome presentation, and delivered in form his credentials, and he is now awaiting the reply from Pekin. It is not impossible that he may be invited to come to Pekin. The Viceroy invited him to visit the great city of Suchow, and he accepted the invitation for a period in future, when things grow more quiet.

In no other country in the world is the ability to read and write so universal as it is here. In the social structure of America, there is no such thing as a great class devoid of a knowledge of the first elements of education. In no other country in the world is the newspaper press so powerful as it is in the United States. Nor there else is it so omnipotent in its influence, so omnipresent in its action. The republican institutions of our country render every man more or less, a politician, he may not be an active one, he need not necessarily spend his days looking after office which he never grasps, he may not make himself prominent at election times or be a foremost man at the polls, ready to bully or be bullied, as the case may be, but he is still a politician. He is constantly yearning for political intelligence, he takes an interest in it that foreigners can scarcely understand, and the newspaper everybody must and will read. With many it constitutes, after they have grown to manhood's estate, their sole library—the only printed work they can ever find time, amidst the exhitement and turmoil of active business life, to read.

With all the compliments that have been paid to it, this is a very calculating age. If a gentleman should fall in love with an angel, before he proposed, he would enquire for how much her wings would sell. And if the price suited his views, he would upon her card, then, after marriage, convert her golden harp and easy chair into back stock. If he succeeded the world would pronounce him by his proceedings. Everything is money-made, from sentiment and shoulder. Mankind wonder if the ancients realized so much as they imagine, for they have never yet been able to obtain any longer without payment. Little old Charon, who ferried the dead over Styx, charged each one more than a cent for his passage.

Lines on the death of Charles Drummond.

BY A. R. W.

On the 28th of August last our young and promising friend Charles Drummond, of this city, son of the late Captain Jacob Drummond, with bright prospects before him for a life of usefulness, comfort and prosperity, was suddenly cut down by the hand of death, while tarrying with his mother at the Washington House in Conway, N. H.

A stranger lady who, the evening previous to the departure of our young friend, had in her journeyings, stopped at the public house where he died, a few hours after the event, placed in the hands of his mother the following tender letter and the accompanying lines, so well calculated to sooth and comfort the heart of a bereaved mother, and which we are kindly permitted to publish.

MRS D.—I have expressed imperfectly some of my thoughts in reference to the departure of your dear son. If they will impart any consolation to your own mind in this hour of trial, the writing of them will not have been in vain.

The Lord bless and comfort you

With deep sympathy,

Yours, A. R. W.

STRANGER—BROTHER.

Stranger—brother! all is ended
Pain, and fear and toil and strife
Safe by angel guard attended,
Thou hast entered into life

Meekly thou thy cross hast taken,
Followed where thy Saviour led,
Trusting with a faith unshaken
In the gracious words he said

"I am with thee"—was the saying,
Met thee in the path of youth,
Kept thy early feet from straying
Won thee to the Gospel truth

"I am with thee"—was the calling
Urged the dying saints to win,
From the bondage dark and thralling
Of the world, and hell and sin

"I am with thee"—was the breathing
Whispered in thy dying ear,
On thy Saviour's bosom leaning
Nought could give thee anxious fear

"I am with thee!"—Oh that feeling
Who below its sense can guess?
But around thee now its swelling
With its untold power to bless

"I am with thee!"—Oh the gushing,
Bursting tides of bliss that roll!
Every pain and tumult hushing,
Bearing rapture to the soul

Stranger—brother! All is ended,
Pain and fear, and toil and strife
By thy Saviour's voice attended
Thou hast entered into life

North Conway Aug 28, 1853

Commodore McClure, who has made himself famous, by his successful efforts to prove that there is a northwest passage to the East Indies by the way of the Arctic seas and Behrings Straits, is comparatively a young man but has prosecuted his labors with a degree of enthusiasm seldom surpassed. He was the first Lieutenant of Sir James Ross ship Enterprise, in the first searching expedition for Sir J. Franklin, and was promoted for that service. He then volunteered for the second expedition by way of Behrings Straits, and proceeded thither in company with Captain Collinson, of the Enterprise, at the beginning of 1850. Capt Collinson parted Company with Commodore McClure, and bore up for Hong Kong for the first winter; but Mr McClure stood on towards the northeast, for winter quarters, and the last we heard of him before the present season was in Behrings Straits, where Capt Kellett in the Herald arrived just in time to see him dashing on towards the ice. Capt Kellett then deemed it advisable to recall the Commander and made the signal accordingly; but McClure parted from his senior officer with the Nelsonian reply also by signal, "Can't stay!—Own responsibility." That was the last communication that took place with the Investigator on the Behrings Straits side of the North Pole. In connection with this subject, perhaps the most singular fact is, that having parted with Capt Kellett in this manner and in such a locality—is very Commander McClure and this very Captain Kellett should meet on the next occasion on the other side of the pole—in fact, that Captain Kellett should be the very man to rescue McClure and his brave fellows from starvation and give him the helping hand to accomplish that almost superhuman enterprise which he forbade him from undertaking. Captain Kellett became aware of the position of the Investigator from a letter previously deposited by Commander McClure at Melville Island.

THREE MEN DROWNED.—Three men belonging to the crew of Messrs Clark McCrillis & Brown, at Brompton Fall on the St Francis river, near Sherbrook, Canada, were drowned on the 3d instant, while crossing the river in a batteau. They had put a bob sled upon the batteau and the boat struck a rock in the quick water and sunk, and the men went over the Falls. No assistance could be rendered.—Their names were Joseph B. Brown, of St Albans, George W. Fogg, of Brooks, and —— Vickery, of Exeter.—Mercury.

DEATH OF DR. NOYES.—Dr Josiah Noyes formerly Professor in Hamilton College, died at his residence in Clinton, N. Y. on the 19th inst. Dr Noyes was a native of New Hampshire and graduated from Dartmouth College, in 1801. Among his classmates was Daniel Webster, between whom and himself a close friendship was formed which continued until the death of the former. Among the last labors of Dr. Noyes was the writing out of the reminiscences of Mr Webster's College life at the request of the Literary Executors of that eminent statesman.

DISASTER.—Schooner Orlando, or Orland, of Beverly, Pendleton from Rondout, for Dartmouth or Portsmouth, with coal, was in contact on Friday night, near Gull Island, Long Island Sound, with brig Eugene Reed from Lubec for New York, and was so much injured that she soon after sunk. The crew saved themselves in the boat, and were taken on board the brig, having lost every thing but what they stood in. Capt Pendleton also lost his freight money from the last trip, amounting to $250. The Eugene was somewhat damaged and put into New London on Saturday morning for repairs.

From California.

NEW ORLEANS, Nov 7

The steamer Eldorado, from Aspinwall, with California mails, arrived to day. She reports that the George Law, for New York, left Aspinwall 31st, with 600 passengers and one million of gold dust.

The loss by the conflagration at Sonora was greatly exaggerated—it was only $300,000.

Advices from San Antonio report a rumor that 5000 Mexican troops are marching upon El Passo.

SCHOONER CAPSIZED.—*Boar Island*, Nov. 8. Schooner Alligator, Capt. Verill of Tremont, was capsized, heading in a squall off Cranberry Isles. A vessel went to her relief, and took the crew safely ashore. The vessel was a total wreck. The Commissioners have instituted a court.—The Commissioners

PRIZE FIGHT ABETTORS ARRESTED

NEW YORK, November 8th

Six or eight individuals were arrested yesterday in this city upon a requisition of the Governor of Massachusetts, charged with being abettors in the recent prize fight at the Boston Corners.

Considerable excitement has been created, as it is asserted that the Sheriff holds warrants for the arrest of sixty other persons, many of them moving in high life, who are charged with the same crime.

DISCRIMINATING REMOVALS

WASHINGTON, Nov 8

The President has ordered the removal of Mr Stiles, Postmaster at Bedford, Mass, and Mr Merrill, Postmaster at South Andover, on account of their Coalition principles.

NEW YORK MARKETS.

NEW YORK, 8th.

Cotton unchanged.

Flour little changed in value, for Western and State flour the demand is quite active for export and the trade. Sales of Western Canal 10,000 barrels. Southern steady and in fair demand, sales 1500 barrels.

Grain is buoyant, but in wheat, demand hardly so active.

Corn hardly so firm, sales 20 000 bushels.

Provisions—Pork in fair demand. Beef heavy at $10 to $11 for new country mess.—Lard heavy at 10¾ to 11¼. Butter and cheese steady. Oats in fair demand.

☞ 11 bbls liquor, seized a short time since under the Maine Law, were destroyed yesterday, and 160 gallons were found upon one of our wharves, in kegs packed in flour barrels—seized and taken to the watch house, to be used up according to law.

Bangor Light Infantry.

UNTIL further notice the regular company Drills will be on MONDAY evening, commencing at 7 o'clock. For the latter part the will be dispensed. On Friday evening, there will be a military squad drill.

DR. HAMPTON'S VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System

This article, which has made so many wonderful cures, was discovered by Dr James Hampton of Louisville Ky, now in fine health in the 70th year of his age, and is acknowledged by those who have used it to be the best family medicine in use, and as warranted free from all mineral substances. By its mild action on the Stomach, Liver and Kidneys, it will cure the diseases of those organs, with all Chronic Complaints as *Dyspepsia, Cough, Asthma, Bronchial and Lung* affections, Pains in the Back Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fevers, Bowel Complaints, Worms and Nervous Debility, with all diseases arising from Impure Blood. As a Female Medicine it has no equal. It will change the complexion from a pallid to a blooming one.

SEYMOUR'S GALVANIC

ABDOMINAL SUPPORTER.

THIS apparatus possesses all the mechanical advantages of the Abdominal Supporters now in use and also some valuable improvements besides the galvanic attachment. It has been tested approved of and universally adopted in the practice of all the leading Physicians in New York—and and all other places where introduced in the treatment of all Prolapsus cases which exhibit themselves under so many different heads, and particularly in the cases of Uterine difficulties. The beneficial results which have uniformly attended the use of this instrument are a sufficient guaranty of its utility and general application. The advantages of this over other Supporters are it covers by its Gutta Percha material, presents a smooth surface that does not retain heat or impurities which pass from the system, and can be kept pure and healthy.

The attention of the medical profession is respectfully solicited to an examination and test of the instrument. The above Supporters are for sale by GEO W EMERSON Druggist, No 14 Smith's Block sole agent for Bangor and vicinity

BROKEN China Glass Earthen Ware and Fancy Articles of every description repaired and mended in such a strong as before broken without injuring its appearance

This Cement which has been proved to be of great strength will be found particularly useful in every family, the simple manner of its application is alone a recommendation The adhesive property which it contains is so wonderful that most things will rather break in a fresh place than where they have been mended with it The variety of purposes for which it may be used are so numerous that it would be difficult to recite them. Its success in mending Glass China &c is extraordinary, no ordinary degree of heat affecting it and as the joints are scarcely perceptible articles of this kind may be made useful for years which otherwise would have been cast away

TESTIMONIALS

The following certificate from Dr John C Warren, of Boston was given 17 years since but will last forever

Boston Jan 5 1835

Having had occasion to observe that some persons afflicted with Hernia have suffered much from the want of a skilful workman in accounting Trusses to the peculiarities of their cases I have taken pains to instruct myself of the competency of Mr J F Foster to supply the deficiency occasioned by the death of Mr Beach—After some months of observation of his work, I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments and ingenious in accommodating to the variety of cases which occur, I feel called upon to recommend him to my professional brethren and the public as a person well fitted to apply their wants in regard to these important articles
JOHN C WARREN, M D

The undersigned take great pleasure in recommending to the favorable consideration of those who are unhappily afflicted with Hernia Mr James Frederick Foster, as a skilful and ingenious artist in the manufacture and fitting of Trusses We have employed some of his (for twenty years) and therefore speak from personal knowledge of his abilities His early advantages, his long experience in the business and the large number of individuals who have received relief in a variety of cases, render him, in our opinion, equal if not superior to any manufacturer with whom we are acquainted Mr Foster's character was master of the Peter Boston Hospital for upwards of twenty four years during which period Mr Foster made the fitting of the apparatus, and made applications of Trusses to patients with great success, some of which were of a very complicated and intricate character

It is well known to all who have occasion to wear a Truss that its greatest excellence consists in its adaptation to the body so the same time relieving the pain of any injury. Some may make a Truss but to be a skilful fitter one can only be acquired by long practice and attention, and then time radically cure the disease

We are thus fully convinced that Mr Foster has the highly merited skill and knowledge. These qualities of Dr J C Warren and other eminent surgeons, which he has shown to us fully sustain the opinion we have expressed

Boots & Shoes.

FRENCH and American Calf Skins, Also, Sole Leather, and Binding Shoes, for sale by
D. BUGBLE.
Main street.

It had its origin in the Forests.

THE RED MAN, endowed by Nature, has supplied the art of compounding healing and soothing Medicines, his fact has been acknowledged by those who have used

Dr. Hart's Genuine Indian Salve.

Every family should be without it, and all heads of families should keep a box in the house and have it handy in case of accident.

Indian Salve cures Ulcers or Fever Sores.

Mr Ezekiel Ward of Gorham, Me, who for thirty years has been troubled with a very bad Ulcer or Fever Sore upon his ankle, which has at times been so inflamed and swollen that the skin would crack open, and the pain so intense as to deprive him of rest day or night, has, by the use of the Indian Salve, so far recovered as to be able to labor upon his farm with perfect ease and comfort.

Mr Andrew Hodgdon, of Falmouth, who has used the Indian Salve for a very bad Scrofulous Sore, says it gives him more comfort than all the remedies he has ever applied. It relieves the inflammation, subdues the pain, and enables him to attend to his business as usual.

Indian Salve cures Piles.

A man in Buxton, was entirely cured of a severe attack of this painful disease, by a few applications of the wonderful Salve Another Gentleman in Portland, says it gave him instant relief in a case of Piles of long standing

Indian Salve cures Scald Head.

A boy in Lowell was cured of Scald Head, by the Indian Salve after many other well tried medicines had failed Another in Sebago was cured of this awful malady after four boxes of All Healing Ointment, and many other remedies had been used, with no good results A child in Portland was cured of a very bad case of Scald Head by using one box.

Indian Salve cures Poisoned Limbs.

Two boys in Scarborough were cured of bad sores on their legs occasioned by being severely poisoned

Indian Salve cures Burns.

A gentleman in Portland has had very severely burned with phosphorous, and after trying many remedies with no good effect, was entirely cured with one box of Indian Salve In cases of burns, if the Indian Salve is applied immediately, it draws out the fire and prevents blistering, and heals at once

Indian Salve cures Cuts and Bruises.

Mr F G Osgood had his thumb nail torn out by the roots, and says on applying the Indian Salve the pain subsided and healing took place at once

Indian salve is the best article in the World for Boils.

Mr D G Plummer, 14 and 15 Market Square, Portland, used this excellent Salve for Boils, and says it subdues inflammations it is superior to any Salve he ever used — Mr Joseph Maines used it for a very painful Boil, and says there is no remedy equal to it for painful sores — Prof. Crouch, of Portland, used this celebrated Salve for a bad sore, and says it is a remarkable remedy So says every one that uses it

Indian Salve is highly spoken of by all who have used it.

In no case does it fail to subdue inflammation and pain, and restore to perfect soundness the most angry looking wound.
